צֵעֲצוּעִים

שַׁבָּת

מִשְׁפָּחָה

the new DJE Hebrew Curriculum, developed by Jo-Ann Myers and Dalia Wittenberg, have now been published and are ready for purchase.

There are seven units in total, geared for children aged 5-12 years old.

Each unit contains:

- **A games kit**, presented in a plastic carrier, which includes:
 - ◇ A games guide
 - ◇ Laminated pictures, words, syllables and first sounds of the target vocabulary (These are provided in various sizes to allow different games to be played by different groups of children at the same time.)
 - ◇ Ten different bingo boards
 - ◇ Two multi-functional games boards - suitable for all units
 - ◇ A student activity book
 - ◇ Two laminated posters
- **A Student Activity Book**, incorporating an integrated Teacher's Guide. The activity book reinforces the language already familiar to the children and serves as a tool to primarily teach reading and then writing skills. (The activity book is only to be introduced once the children have learnt all the target vocabulary from the games.)
